Here's some additional info for the forest roads issue:

"Whether EPA/NOAA can approve additional MMs for Forestry for roads, given the following deficiencies: lack of sufficient description of voluntary program focused on preventing water quality impacts from legacy roads."

Thanks Chris.

Can you also complete the following:

1. Whether EPA/NOAA can approve additional MMs for Forestry for roads, given the following deficiencies: legacy roads not addressed....

Thanks!

Jayne

Subject: RE: Review/Input on Draft List of OR CZARA Issues to be T'ed Up for Management

Hi Jayne,

Please add the following issue to the list:

"Whether EPA/NOAA can approve additional MMs for Forestry for landslide prone areas, given the following deficiency: inadequate approach to addressing high-risk landslide prone areas with the potential to impact water quality and designated uses."

Thanks.

Chris

Subject: Review/Input on Draft List of OR CZARA Issues to be T'ed Up for Management

Hi All,

Am compiling a list of Issues we are T-ing up for management. Please review for accuracy and add the missing information or additional issues.

OR CZARA Issue List

1. Whether new management measures can (attorneys say yes) or should be added for ag.
2. Whether ag MMs continues to meet threshold for approvability given new information on the assumptions underlying our previous interim decision
3. Penalty amount for EPA (baseline? Compounding?)
4. Whether EPA/NOAA would approve additional forestry MMs for riparian if riparian rule includes management measures that adequately protect riparian areas of medium and small fish bearing streams but fails to address non-fish bearing streams.
5. Threshold for back-up enforcement authority for OSDS
6. Concerns about Oregon's monitoring program, even though EPA/NOAA did not public notice those MMs.
7. Whether EPA/NOAA can approve additional MMs for Forestry for roads, given the following deficiencies: legacy roads not addressed....
8. Whether EPA/NOAA can approve additional MMs for forestry/pesticides....

Thanks!
